

“My Voice in America's Democracy”

I know America is the greatest country in the world. I think we need to fight more for our country and not let anyone else take us over. Thank God we have strong courageous men that fought and are fighting for our freedom. I am so thankful for every single veteran who went through all of the things we can't even think about doing. I love how we get to vote for who we want as president unlike other places that don't get that option.

One time I have used my voice in America was when we voted on a field trip we could do in school. The teacher named the options and I voted for what I wanted. Thankfully my choice won! Just like the election where you vote for who you want as president and if your choice wins that person gets in office.

Another example of when I used my voice is when I pleaded that we should go outside for science class. Well it did not work, but I still tried. But one time I asked if we could stay outside for more time and it worked so that was good!

I'm very grateful to have a voice in America and I think that every American should be extremely grateful for their ability to have a voice in their country because we could live in countries like Russia who don't get a choice about what president they want. I love how we have people in the military who will risk their lives just so we can have a good life and not worry that we might be taken over by another country like China.

America is the best place in the world and we are blessed to live here. We should all use our voice to protect democracy.
