

## My Voice In America's Democracy

My voice in America's democracy matters because? I will be making a lot of important decisions when I get a little older. My thoughts are that every voice matters in democracy! Also my thoughts are that the military such as the navy, airforce, and many others have to sacrifice there like everyday for this country. It is amazing that people agree to fight for our country, and they never know when they could die or not.

My ideas about my voice in America's democracy while I'm in school is to talk about voting. And also show us how hard of a decision it is for you to have in the real world. Sometimes it is so hard to decide if you want to vote or not. It is an important and hard decision to make to everybody. Voting is very important, you have to vote for someone to be our president. Then they run our country for four years straight. If i could be president I would cancel out all of the wars in this country.

Wars are how people make this country like it is. Some of these wars happened for a reason but some wars just happen to happen and people just don't care at all. Some wars stare with one country and that war will go on for over four years or five years. It is crazy how long they can be in war for. Sometimes I just wonder about their family's! The family's in the country's with these wars going on are heartbreaking. They would try to leave but the war is still going on so they can't, because the war is going on all day and all night long. It is so sad if they try to leave they will probably end up dying because there are bombs and guns going off all day long. I feel so bad for those families and hope they can stay safe while this war is going on!

My voice is important in America's democracy because every voice is important in democracy. And with all the wars, elections, and a lot of other things going on. I wish the best for everyone and hope everybody stays safe!
