

My Voice in America's Democracy

America is a free country with a lot of freedoms and rights. Every year people from all over the world want to have that luxury that we have here to escape from countries that control them. There are some things that might be a little off here, but there are so many great and wonderful things in america! This is my voice in this American democracy.

First off, the reason why we have all of this freedom is because of the veterans who have fought for us. Over the handful of wars that have been fought for the freedom of america. The veterans in our country are so much to be appreciated for. Every year they saved thousands for the US to protect our country. They risk their lives for the protection of our country. That's why many people from all over the world want to have this luxury to live here.

There are also so many other wonderful things about our American democracy. We are fortunate enough to have that power of freedom of speech and use our votes every 4 years to pick someone new to run our country, and to use our voice as power. Some people all over the world don't have that luxury that we have. How we usually do it is how every 4 years or so, people cast their vote in an election to see who will run the country. It gives us the possibility to choose people who are good enough.

Finally, this comes to show us how good our American democracy is. We might think that sometimes people think the country is off, but at the end of the day we have so much to appreciate with our veterans, people, freedom of speech, and having the luxury to vote for our rights.
